

PANORAMA INTERNATIONAL LITERATURE FESTIVAL 2025

Where life meets literature!

ABOUT PILF

The Panorama International Literature Festival 2025 is a premier global literary event, bringing together authors, poets, philosophers, and thinkers to unite their voices for positive change. Hosted in hybrid format, the festival emphasizes the essential role of literature in fostering cultural exchange and addressing global issues.

Key Highlights:

- **Global Participation:** Encompassing literary voices from 90+ countries, bridging language, culture, and ideas.
- **Hybrid Experience:** A month of events both online and in select physical venues, making it accessible to all.
- **Inspiring Activities:** Panels, live readings, workshops, debates, and a vibrant showcase of global literature.
- **Awards and Recognition:** Honoring authors, poets, and contributors who impact humanity through powerful storytelling.

The Panorama International Literature Festival 2025 is a celebration of literature as a force that not only entertains but also enlightens, challenges, and inspires action.

THE THEME

This year's theme, "Jalam: The Drop of Life," focuses on water, one of Earth's most precious resources, celebrated through philosophy, poetry, and action.

Thematic Exploration:

- **Philosophical Reflections:** Participants will explore water as a metaphor for life, transformation, and unity across cultures. Writers are encouraged to interpret water's symbolic and existential importance in their work.
- **Environmental Urgency:** With the planet facing unprecedented water scarcity, the festival will serve as a platform to highlight this critical issue. Through essays, poems, and stories, writers will convey the challenges of water preservation and its impact on society.
- **Creative Expressions:** From the serenity of rivers to the ferocity of storms, Jalam invites authors to reveal the many forms water takes and the role it plays in shaping life and humanity.

The festival's goal is to create a ripple effect, inspiring real-world change by exploring both the poetic and practical dimensions of water.
